From (Name) Dr. F. H. Gravely, D.Sc.,
(Designation) Director of Fisheries (In Charge)

To The Secretary to the Government of Madras,

DEVELOPMENT Department

Sir,

The Hosabettu yard on the west coast is now open only for six months (from October to March) in a year and is closed at the expiration of this period regardless of fish catches. The sanctioned establishment for this period is three peons on Rs.12-18 per mensem each. The Assistant Director of Fisheries (Coast) reports that the 6th months during which the yard is kept open do not constitute the whole of the fishing season and the curers have therefore to purchase bazaar salt sometimes before the opening of the yard and very often after it is closed. During the months of April, August and September large

catches of Miscellaneous fish (Palatharam) take place and several of the curers who do not get salt resort to private curing. If they purchase bazaar salt, they purchase enough to last them for the whole fishing season consequently they have no inclination to resort to the yard when it is opened.

2. Hitherto the stock of unsold salt at Kosabetta yard after the closure of the yard for the year was transferred to the nearest yard. At the end of 1924-25 there was only a stock of 40 maunds of salt in the yard and the cost of transporting the salt came to Rs.15. In 1925-26 the cost was Rs.50. In 1926-27 and 1927-28 the salt was kept in the yard owing to transport difficulties and in addition to the watchman, a peon withdrawn from another yard was employed on guard duty. But if the salt had been transported the charges would have come to Rs.85 and Rs.135 respectively. When the pay of the watchman and the peon is added to the probable transport charges, the advantage of closing the yard, practically disappears. The Assistant Director of Fisheries (Coast) says that from the experience of the last four years he finds that the advantage of closing the yard for 6 months has been negligible to Government whereas the disadvantage to the curers has been great and has led to complaints.

3. In the circumstances I have the honour to request that you will be good enough to obtain the sanction of Government to keep the yard open throughout the year for a period of three years as an experimental measure.

4. The extra expenditure in the next year can be met by reappropriation if necessary.

I have the honour to be,
Sir,
Your most obedient servant.

For Director of Fisheries.
(In Charge)

Development Dept.

Fish curing yard - Hosabettu in S. Kanara district -
Retention throughout the year for three years.

[C No 145 II]

From the Director of Fisheries,

Ref. No 2927 - F/28-1 d/10-1-29.

To Asst. Secretary

The opening of the Hosabettu fish curing yard for a period of six months annually was sanctioned by the Board of Res in 1908. A staff of one petty yard officer and two peons for the yard for six months annually was sanctioned in G.O. No 3208 Res d/26-11-28. The Director's proposal that ^{the} yard should be retained throughout the year for a period of three years as an experimental measure instead of for six months annually may be supported.

the operations of the fish curing yard at Hosabette,
in the Mangalore circle. The arrangement is
suggested as an experiential measure for a period
of 3 years. This will necessitate the continuance
of the staff of 3 peons (Pay Rs.12-18p.m.)
throughout the year which will result in an
additional cost to Govt. of Rs.270 p.a. In view of
the circumstances explained in the Director's
letter on p.2 C.F. this dept may agree to the
proposal.

As the addl. cost involved is ^{trivial} ~~small~~, the
proposal need not be placed before the Finance
committee.

2. Funds. Please see para 4 of the Director's
letter on page 2 C.F. ^{Para} ~~para~~ 2 of the draft order ^{below}
may be altered as follows: "Specific provision
of funds should be made before extra expenditure
is incurred."

Subject to the above remarks, the draft order
may be accepted in this Dept.
